

PRODUCT DATA SHEET

KZN SAE 20W-50 (SF/CF)

MULTIPURPOSE OIL FOR CRANKCASE ENGINE OIL

Description

KZN SAE 20W-50 is blended with high quality refined base oils, including selected low ash additives and is suitable for superior engine lubrication. It has detergent/dispersant, oxidation resistance, corrosion protectors and anti wear properties.

Advantages

- Resist the formation of sludge
- Reduce wear of camshafts and other vital engine components
- Superior Engine cleanliness under all conditions
- Excellent lubrication
- Protection against wear, rust and corrosion.

Quality Levels

The SAE 20W-50 multigrade oil meets or exceeds the following requirements and levels:
API Engine Service Classification SC, SD, SE, SF (Petrol engines) CC, CD, CF (Diesel engines).

Typical Characteristics

SAE Viscosity Grade	20W/50
Viscosity @40C	164.7cSt
Viscosity @ 100C	18.00cSt
Kinematic Viscosity Index	121
Density @ 20C	0.8866kg/l
Pour Point	-27 deg.C
Cold Cranking Simulator @ -10C	4200cP
Appearance	Bright and Clear
